PROFESSIONAL SUMMARY

Full-stack software engineer with 6 years of experience building scalable web applications and data pipelines in fintech and e-commerce. Passionate about clean architecture, developer experience, and cross-functional collaboration.

WORK EXPERIENCE

Senior Software Engineer

N26 GmbH, Berlin | March 2022 - Present

- Led backend migration of payment processing service from monolith to microservices (Go, Kafka)
- Reduced transaction failure rate by 38% through improved retry logic and circuit breaker patterns
- Mentored 4 junior engineers and introduced bi-weekly architecture review sessions

Software Engineer

Zalando SE, Berlin | August 2019 - February 2022

- Built product recommendation engine serving 12M daily active users (Python, Spark)
- Developed internal A/B testing framework adopted by 6 engineering teams
- Improved CI/CD pipeline speed by 45% through parallelisation and caching

Junior Developer

Thoughtworks GmbH, Hamburg | June 2018 - July 2019

- Delivered client-facing React dashboards for logistics and supply-chain clients
- Participated in agile ceremonies and pair programming across 3 client engagements

EDUCATION

M.Sc. Computer Science - Technical University of Munich (TUM)

Specialisation: Distributed Systems | Graduated 2018

B.Sc. Computer Science - University of Stuttgart

Graduated 2016
